By the end of the workshop you will have an understanding of the concept of life script and story telling, have explored and experienced your own hero's journey and have a clear idea of your next step and how to embark upon it.

The workshop **Finding Your Purpose** will give you the tools to set up the life and work that you want. By the end of the workshop you will have a clear action plan and you will understand the four tools required to create your future business. You will have created a vision of your purpose, how to pitch, position and showcase your products/services.

The **Personal Supervision** workshop will support the development of individuals so that they can move in their chosen direction more effectively. Supervision is focused on developing professional autonomy. We will work based on the requests of the participants. There will be room for coaching, supervision, personal work and discussion.
